Missouri Weekly Cattle Auction Summary 3/14/22

Receipts: 30,443 Week ago: 26,687 Year ago: 41,322

Compared to last week, calves under 650 lbs. sold 6.00 to 12.00 lower, over 650 lbs. sold steady to mostly 5.00 lower. A fairly rough week at the auction barns as the volatility and uncertainty, that has been such a factor in other market segments, finally made its way to the livestock markets. For the most part over the last few weeks, buyers had been buying grazing cattle, seemingly with little care to all the things going on outside the auction barn, hoping that there was enough time before fall that these summer grazers would still be profitable. Diesel fuel approaching or even passing the 5.00 mark in many areas of the state this past week seemed to be the final straw on top of a long list of other factors going on and made the markets take a step back to reevaluate current price levels. Feedlot sales as of Friday afternoon were just under 83K head and sold at lower price levels. Live sales were reported mostly from 138.00-140.00 and dressed sales 219.00-222.00. Boxed beef cut-outs might have finally found the bottom and are perhaps looking to make a change in direction as spring and grilling season approaches. Choice closed on Friday at 254.71, up 0.38 and select at 249.11, up 0.70 compared to the previous week. The Missouri Stocker Formula consist of 6392 head with a weighted average weight of 540.22 lbs. and a price value of 186.82, 7.20 lower than the previous week.

MISSOURI WEEKLY HAY SUMMARY 03/10/22

Despite the fact daffodils can be found blooming and many areas set a record high last week, Mother Nature was quick to remind it is still winter for a while. Snow can colder temperatures came back over the state this week with Northwest MO seeing the highest totals. Although the cold and snow isn't much fun to deal with the moisture was welcomed as that area is still unable to get out of drought status. There were a few reports of fertilizer buggies out last week, spreading the highest priced fertilizer in history. Fuel cost although with many other things have set new record prices as well leading to much speculation about what price levels maybe for new crop hay. Hay supplies are moderate, demand is light to moderate and hay prices mostly steady. The Missouri Department of Agriculture has a hay directory visit <http://mda.mo.gov/abd/haydirectory/> for listings of hay <http://agebb.missouri.edu/haylst/>
